

The LED Light Cube by Viteo is made of opal acrylic glass and is stable enough to be used as a seat or a small table. It comes in the "mood-version" with freely programmable colour change or simply in one colour. The Light Cube runs on a lithium-ion battery and the charging socket is on the bottom of the battery. Available at Outdoor Concepts. [www.outdoorconcepts.es](http://www.outdoorconcepts.es)

The Amphora outdoor floor lamp by Bover comes in three different sizes. It has been treated to help withstand exposure to the elements. The lampshade is made of hand-wrapped polyethylene synthetic fibre and is available in various colours. The light source is protected by a frosted, polyethylene globe of medium density and UV protection. [www.bover.es](http://www.bover.es)

The Meridiano outdoor lamp for Vibia can be used as outdoor seating during the day and an outdoor lamp at night and is available in three colours: khaki, green and off-white. [www.vibia.com](http://www.vibia.com)

The Bonheur Floor Lamp by Serralunga is contemporary in its design and can be used outdoors and indoors. It has a wide base, giving it enhanced stability, and it emits a soft glowing light that looks beautiful amongst vegetation. [www.serralunga.com](http://www.serralunga.com)
